New American Revolution has been begun.

Atlanta, GA – A grandpa from Georgia has formally announced a new American revolution with the battle cry “We want our country back!”

[Lawless America](#) began as a mission to produce a documentary film about government and judicial corruption, but the mission grew to be a movement, and it is now the Lawless America Revolution, led by Producer/Director and grandpa, William M. Windsor.

America has become lawless. We have plenty of laws, but judges, attorneys, elected officials, law enforcement, and a wide variety of government employees feel they are above the law. These dishonest, corrupt people take the law into their own hands. And there is nowhere for We the People to turn for help. No one is accountable.

Bill Windsor has commented:

“I have sent information about crimes by federal judges and federal employees to every member of the United States House of representatives and Senate. Ignored. I filed an action in the United States Supreme Court asking the justices to tell federal judges that they have to abide by the Constitution, and our Supreme Court Justices refused to do so. These corrupt people will stop at nothing.

“We no longer have our Constitutional rights. Our government officials do whatever they want, and the Constitution is meaningless to them.

“I have learned from my own experience that our elected and appointed government officials are dishonest, and many are out-and-out corrupt. I can say this because “I have contacted local, county, state, and federal officials (of all parties) with undeniable proof of significant corruption, and no one has done a thing. Instead, many of these officials have worked together to thwart my every effort to expose the corruption. My money has been stolen; my life has allegedly been threatened; and I have been denied every form of Constitutional right.

“Many others have similarly been ignored in their efforts to find justice in America.

“I am driving to every state in America filming interviews with approximately 2,000 victims of government and judicial corruption, so I know how serious this is. Our rights

have been stolen by dishonest and corrupt government officials, and we must get our country back.”

Our Constitutional rights are a mirage.

There is no one in government who will stand up against the evil-doers. Judges do whatever they want.

Judges all across America regularly commit criminal acts and damage people because they have the power to do it. Judges answer to no one.

Our elected officials ignore the wrongdoing and corruption because they are all part of “the system.” Most are attorneys, and they all belong to the same “fraternity” of attorneys.

Our fundamental rights have been stolen. Our government officials have failed to protect us and they have denied honest services to us. We want our country back!

The so-called “mainstream” media (newspapers, TV, radio) will not cover it. I have been told they are afraid of the judges and other power brokers. This will be the biggest scandal in the history of America if the story were exposed. Instead, they cover it up.

So, here we are. Judges can and will do anything to any of us without concern for the facts or the law. They will commit crimes to damage us.

They will protect and rule for the benefit of their attorney friends and those with money and connections.

They destroy people financially and emotionally.

They rip families apart.

They allow the elderly to be abused physically, mentally, and financially.

They conspire to commit foreclosure fraud and financial fraud.

They deny parents and grandparents the right to see their children and grandchildren, with guardianship and children and family courts often acting as money-making schemes for those favored by the judges.

We do not have the rights to due process. We do not have the right to a fair trial. We do not have the right to an impartial judge. We are guilty unless proven innocent...against all odds.

We do not have the right to have the laws properly enforced. We may be denied the ability to file a lawsuit, call witnesses, examine or cross-examine witnesses, and the list goes on.

The legal system is a giant money machine for the bad guys.

The system has been bastardized over the years to generate more and more money for attorneys and our elected officials.

The system has been completely warped to favor big, rich corporations, campaign donors, bribers, other government officials, and anyone else whom is favored for the wrong reasons.

And our elected officials in the Democratic and Republican parties are at least dishonest, and most simply have to be classified as corrupt. They ignore the real problems in America. They take care of their fat cat friends. They have mortgaged our future and have all but destroyed America. We want our country back!

Bill Windsor stated in a video posted on www.YouTube.com/lawlessamerica:

“I don’t have all the answers, but I have a few. And I have unique business experience over the last 40+ years that makes me well-suited to evaluate this crisis and generate ideas for battling the corruption. I have spent the last several years doing this.

“The fundamental problem is dishonesty. The core problem behind everything is dishonesty.

“We must see all of the corrupt and seriously dishonest people removed from our government.

“To ever accomplish anything, we need to educate a significant number of people about our plight.

“We need our fellow Americans to recognize that the position we are in today is dramatically worse than when the colonists faced from 1765 to 1776.

“We need leaders in the battle against government corruption to agree combine efforts to accomplish something, so we can educate people and build strength in numbers to generate meaningful results.

“We need Americans just like you and me to recognize the serious problem and spread the word.

“We do not have to accept what our country has become. It’s our country, and we can make it what WE want it to be.

“We do not have to accept the Democratic and Republican elected officials who appear to be primarily interested in what they can get out of being in an elected position. We want our country back!

“We can fix America. We can get our Constitutional rights back. We simply need a peaceful revolution through which we educate our fellow Americans and motivate them to remove all of the corrupt and dishonest people from office.

“Government is supposed to work for us. Laws are supposed to protect us, not be used against us.

“A recent survey found that the approval rating of Congress has dropped to its lowest level in history – 12 percent. That’s down from 21 percent in June. But what will we do in November, we will re-elect many of these folks and when we do elect new folks, it will just be more of the same.

“In America today, 1% or less of the population has all the power: Our elected officials, big corporations, and the mega-wealthy.

“The rest of us – the 99% -- are Nobodies, powerless to obtain justice and denied our fundamental rights.

“But there is one place where we have power...at the ballot box.

“After carefully evaluating our plight, I propose that the way to save America is through a peaceful revolution, the Lawless America Revolution.

“My proposal is to build a new political party from the 99% of us who are currently essentially powerless. We elect people who we feel will be honest and protect these fundamental rights, and we have contracts and pass laws that make these elected officials accountable. Our elected officials and judges do what they are supposed to do, or we remove them immediately. By requiring every government official to sign a Contract with the Citizens making them accountable to us through a Grand Jury action, we will be forever protected against the corruption that has eaten our country alive. Never again. We want our country back.

An online video explains the reasons for the Lawless America Revolution – http://youtu.be/kLaNu_2sNoQ Another video provides an update on the project -- <http://youtu.be/anuGKuiQkv0> And another video explains some common sense legislation that will correct most of the problems -- <http://youtu.be/OmCZ12OnogU>

Lawless America will expose government corruption in America in a shocking expose. The movie is being filmed in all 50 states and DC in a 143-day road trip covering 21,849 miles. As many as 2,000 people will be filmed, nobodies with no connection other than the fact that all are victims of judicial and government corruption.
