Subject: RE: Sean Boushie Complaint by William M. Windsor

Mr. Windsor,

I've looked over the material you provided. The emails appear to have come from a Gmail address, which is a private email account, not associated with the University of Montana. Based on this, I don't believe that we have primary jurisdiction to begin a criminal investigation. I suggest you contact your local police department to begin an investigation. We can and will assist them in any investigation. If you choose to not pursue a criminal investigation at this time, we can contact Mr. Boushie and ask him to have no further contact with you.

Let me know what you would like to do.

Ward De Witt
