February 5, 2013

Congressman Michael F Doyle
401 Cannon House Office Building
Washington, DC 20515-3814

On behalf of your constituents, I am urging you to support our pleas to stop corruption within the courts. In conjunction with Lawless America and fellow citizens from across the nation, we want you to endorse House and Senate Committees holding public hearings regarding the mass devastation being caused by alarmingly compromised judicial systems throughout the United States.

For 217 days, Bill Windsor has traveled alone over 30,000 miles to every state filming people who have been harmed by judicial corruption and government corruption. Upon compiling 1,000 hours of video testimonials from over 750 ordinary citizens from all across the United States, the **Lawless America** project provides overwhelming evidence that the Constitution and laws written by the Legislative Branch are being disregarded by the Judicial Branch of government. *This rampant disregard for the law is captured in the video testimonials from every state in the nation.*

Today, hundreds of victims and advocates have made appointments with their members of the House and Senate, and they will hand-deliver a DVD containing Congressional testimony from victims as well as proposed legislation to reform the legal system and the judiciary. Every member of Congress will receive the evidence from victims on February 5.

Abbreviated video presentations are being offered of many horrendous cases that have devastated the lives of people by unlawful judicial proceedings and legal abuse. The intent is to show Congress what is occurring all across the country and why public Congressional hearings are needed to make the public aware and bring about the change required.

The evidence is overwhelming. Blatant and often collusive abuses of power by these government officials to dictate outcomes of people's lives unjustly, makes this a crisis situation. Measures implemented by the legislature to assure accountability within the Judicial Branch will curtail these travesties of justice. Congress, working together with the People, can restore a legitimate government that complies with the Constitution and assures a legal system that applies the Rules of Law.

In addition to the personal meetings on February 5, **Lawless America** is holding a caucus in Washington, DC on February 6. Members of Congress are invited to attend a small session at the Rayburn Office Building, Room 2103 from 11 am to noon. Members of Congress, their staffs, and the media are invited to attend a large group presentation from 2 to 5 pm in the Ballroom at the Crowne Plaza National Airport Hotel, 1480 Crystal Drive, Arlington, Virginia. Then the day will be climaxed with 60 victims speaking at the Capitol Visitor Center North and South Theaters from 5:30 to 8:30 pm.

A documentary film titled **Lawless America** is being produced from the filming. It is scheduled to be released in January 2014. Discussions are also currently underway that could lead to a weekly Lawless America network television show. The movie asks: Can 750 Nobodies save America? That's the goal of the project.

Lawless America will expose government corruption in America in a shocking expose. This will not be just a movie; this will be news; this is an effort to save America.

The government has done everything possible to keep this story from being told, but **Lawless America** will expose the corruption for all to see.

Producer/Director Windsor said: "Lawless America will expose the loss of the Constitutional and civil rights of all Americans by exposing dishonest government officials and a broken judicial system. Judges can and will do anything to any of us without concern for the facts or the law. They commit crimes to damage us. They protect and rule for the benefit of their attorney friends and those with money and connections. They destroy people financially and emotionally. They rip families apart. They allow the elderly to be abused physically, mentally, and financially. They deny parents and grandparents the right to see their children and grandchildren, with guardianship and children and family courts often acting as money-making schemes for those favored by the judges."

Our Constitutional rights are a mirage. There is no one in government who will stand up against the evil-doers. Judges all across America regularly commit criminal acts and damage people because they have the power to do it. Judges answer to no one.

750 nobodies and their families and friends have set out to save America. No guns, no violence, just a Jeep, cameras, microphones, and 750 everyday people telling their stories.

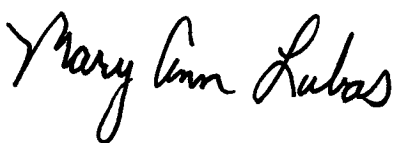

Congressional committees working with the People to prepare a series of Congressional public hearings on this critical issue are the most effective utilization of resources possible. Public hearing must be held in the appropriate subcommittees within the House and Senate Judiciary Committees and Homeland Security/Government Accountability Committees as soon as possible.

The Congressional public hearings and live testimonies are needed for decision makers to obtain the information required to identify these abuses and to implement effective solutions that will restore a legitimate government in accordance with laws established by the Legislative Branch. Lawless America will do everything possible to aid Congress to make the public hearings a success for the purpose of restoring a valid government.

Please tell the Chairs and Ranking Members of the House and Senate Judiciary and Homeland Security/Government Accountability Committees that you support and endorse the need for public hearings on corruption in the judiciary.

Your cooperation and participation addressing these gravely serious matters are greatly appreciated.

Sincerely,

A handwritten signature in black ink that reads "Mary Ann Lubas". The signature is written in a cursive, flowing style.
