Bill, i don't know if you remember me or not. I was filmed in Jefferson City Missouri on Halloween. You also interviewed my 16 yr old son Noah who was illegally taken from me and horribly abused in foster and and group homes. They finally won. My son took his own life yesterday morning. He was afraid they would take him again and he wrote a letter saying he could not live through it again. They have won. My fight is over. They have destroyed my son. Thank you for being so nice to him in Jefferson city. He really enjoyed the experience. I hope your movie helps people. I however have given up hope. Good luck and again thank you.
